How the night works

Dear student, parent and/or carer,

Subject presentations will take place at the times listed below in the coloured zone areas, (**please see accompanying school map for details**). All you need do to make your night run smoothly is the following;

- Arrive, register and collect your information packs from the school Atrium, (students will be on hand to guide you).
- Begin by knowing which subjects you wish to see and in which particular order (subjects can be found on the accompanying map).
- Decide on **the first subject session** you wish to visit (**note which colour zone it is in**). Upon arrival let us know **your first subject** and **the coloured zone it is in** and we will supply a guide to escort you to the appropriate zone and room.
- Upon having completed your first subject session please return to the atrium (where you registered) – we will have staff and students situated around the site to assist with this.
- Decide on **your next subject session**, (**note which colour zone it is in**) and again we will provide a guide to escort you to the appropriate room.
- And so on...
- PLEASE NOTE, there will be two scheduled Principal presentations (**19:00pm – 19:30pm and 20:00pm – 20:30pm**). You need only attend one, as the second will be a repeat of the first.

We have put 5 x 20-minute sessions on to ensure you can visit at least three subject areas and attend a Principal's speech without fear of missing out on anything.

Doors open for guest students in the school's Atrium from 17:40pm to allow you to plan your evening.
