May 9, 2014,

Dear Parent or Carer,

Due to an improved structure of the School’s timetable, we will be able to increase the number of teaching groups in the core subjects from four to five sets from September.

To help the school collect the information required to re-set the teaching groups, assessments in Mathematics and Science will take place during the week of June 16th. Teachers have been asked to make sure that all students are aware of the areas of the course which may be assessed so that students are able to prepare well.

It is clearly important that students use this as an opportunity to demonstrate what they are capable of achieving and I urge you to help your son by encouraging him to revise thoroughly. It is anticipated that sets 4 and 5 in science will transfer to Core and Additional Science rather than qualifications in each separate science.

If you have any general questions regarding the assessments please do not hesitate to contact me. Please direct any subject specific questions to your son’s teacher of the Head of Department.

Yours sincerely

Juliet Diaz
Deputy Headteacher
